

DP8340 Series Dot Matrix Printers

The DP8340 packaged printers are designed for heavy duty applications requiring maximum reliability and a small footprint.

Features:

- 40-Column, 9-pin dot matrix printer
- Black and red printing on the same line
- Ideal printer for POS, data logging applications
- Sprocket model (DP8340S)
- Popular, cost effective printer

The DP8340 Series are housed dot matrix impact printers designed for heavy duty applications requiring maximum reliability at a competitive price. Each model is packaged as a printer module and separate power supply module in order to take up a minimum of counter space and make it an ideal printer for mobile applications. The included cash drawer driver provides a large reduction in system cost as it allows for the use of simple non-intelligent cash drawers. Additional features include two color printing, one line validation, friction and sprocket versions and models to accommodate paper from 3.25" up to 4.5". Sprocket model ideal for label printing.

DP8340 Series Product Specifications	
Print Speed	DP8340F/S - 2.0 Lines/sec - DP8340R - 3.3 Lines/sec
Auto-Cutter	N/A
Line Spacing	DP8340F/S - 12 CPI / DP8340R - 15 CPI
Resolution	9-pin serial impact dot matrix
No. of Columns	DP8340F/S - 40(12CPI) DP8340R - 44(CPI)
Paper Specs	Standard Roll Paper
Width	DP8340F/S - 4.5" / DP8340R - 3.25"
Thickness	0.07mm to 0.09mm - Single-copy Two-ply max. 0.13mm
Roll Diameter	Max. 3.15" (80mm)
Reliability	MCBF - 10 Million lines (CRT), Printhead 70 Million characters N/A
Printer Cutter	
Operating Conditions	5°C to 40°C 10% to 80% RH
Interface	Serial (RS232C), Parallel (1284IEEE). Option: 20mA current loop (models FD/SD)
Logo Store	N/A
Cash Drawer	Yes
Auto-Cutter	N/A
Drivers	Windows9x/NT/2000, OPOS, JavaPOS™
Safety Standards	UL, CSA, TUV
Case Color	Putty
